

5. INTERNATIONAL LIVESTOCK and DAIRY INDUSTRY FAIR

25-28 OCTOBER 2017 / ANTALYA EXPO CENTER

5. International Livestock and Dairy Industry Fair

It is known by everyone that agriculture and livestock industry has become so prominent when Turkey's geographical location, structure and climate are taken into consideration. Our country, which is in a location linking Asian and Europe, is also a rare investment country for opening to foreign countries and for foreign investors.

Antalya is an attractive city either close location to livestock applied regions or easy accessibility to touristic region. Antalya locates in very suitable location for domestic and international visitors with various accommodation opportunities.

Although there are many livestock exhibitions in Turkey, Dlg Fuarcilik realized that there is no specific exhibition for Livestock and Dairy Technologies. We have set and carried out an exhibition similar to EUROTIER, organize every second year by DLG International in Hanover – Germany, in TURKEY.

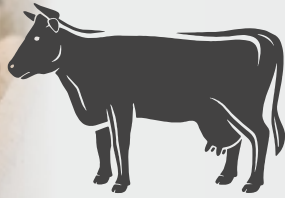

Sectoral Cooperation

Animall Antalya International Livestock and Dairy Industry trade fair was held on 2015 in cooperation with DLG Fuarcilik, introduced outdoor applied agricultural exhibition to Turkish Agricultural sector, and ExpoLink Fuarcilik, specialized on only Agriculture and Livestock exhibition organization.

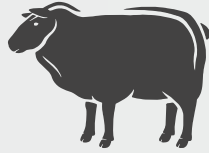

We continue at full steam for 2017,Animall Antalya on tour will start up on November 2016 at EuroTier Hanover – Germany Hall 26 Stand No: A32e.
